

COUNTRY CLUB HEIGHTS UTILITIES IMPROVEMENT PROJECT

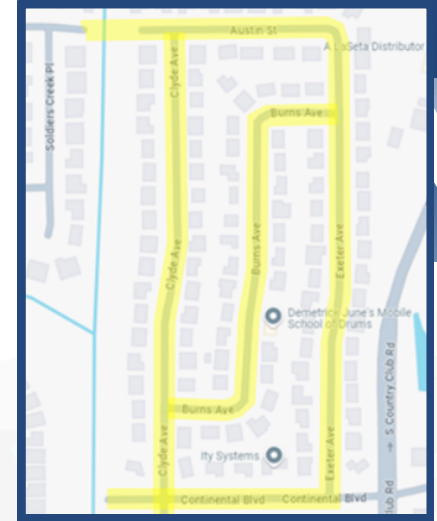

Community Update: July 19, 2024

We appreciate your continued patience as we work through the Country Club Heights Utilities Improvement Project.

Seminole County is currently undertaking temporary restoration measures to improve neighborhood accessibility. These efforts include street sweeping and the temporary restoration of sidewalks, driveways, and pavement for impacted residents. The temporary restoration contractor expects to complete this work within the coming weeks.

The steps to secure a new contractor are well underway, but will take some time, as the County is committed to completing this project with the highest standards of quality and reliability. As this process moves forward, we will promptly inform you of any new updates.

Please do not hesitate to reach out with any questions to Community Project Liaison, Leann Wishah, via email at CCH-Utilities-Project@seminolecountyfl.gov or by phone at (352) 432-8179.
